

1. Print and cut around the outside of the dotted edge.
2. Fold the coloured squared side in half and then half again.
3. Open out and turn it over - so the top is showing the VetSet2Go logos and then take each corner and fold it into the middle.
4. Turn it over and repeat this step again.
5. Turn it back over so you can see the coloured squares on top.
6. With the four coloured squares facing up, place your index finger behind the teal blue square and thumb behind the green.
7. Repeat this step with the other 2 colours, so all colours touch and form a diamond shape.
8. When complete, all the colours should be at the top and meet.
